

NHTGlobal

HERBAL

# LivaPro

With all of the past eating and drinking habits, it's time to do something nice for our liver. The liver is our body's largest internal organ and performs many vital functions, including detoxification, protein synthesis, and regulation of our metabolism. However, many of us make poor lifestyle choices (unhealthy diet, smoking, insufficient sleep or exercise) that can take a toll on our liver and overall quality of life.

NHT Global's LivaPro is a natural way to keep your liver functioning at its prime. Made with eight reinvigorating herbal ingredients that were carefully selected for both their individual and synergistic effects, LivaPro supports healthy liver function, cleanses and detoxifies, and provides other uplifting benefits.\*

## ABOUT NHT GLOBAL'S HERBAL LINE

NHT Global is proud to partner with the Hong Kong Institute of Biotechnology (HKIB) to launch our Herbal Line, which features innovative products designed to protect the health of our body's most vital organs.

Founded in 1988, HKIB is a leading biotechnology research and product development company and wholly-owned subsidiary of the prestigious Chinese University of Hong Kong (CUHK). HKIB specializes in formulating perfectly balanced herbal supplements that marries the best of both East and West. Their expert team of herbalists begins by sourcing some of the most precious ingredients known to Traditional Chinese Medicine and develops them into premium quality finished products that are manufactured according to the highest scientific standards in a GMP certified facility in Hong Kong.

HKIB's holistic approach guarantees that every product in NHT Global's Herbal Line is not only rooted in traditional Chinese medicine techniques, but is also pure, safe, and backed by Western science and technology.
