Collagen Supreme

Collagen is essential to the health and beauty of the body.* As an important component of connective tissues, collagen maintains the structure of our tendons, skin, bones, joints, and muscles, and is vital for preserving the skin's hydration and firmness.* However, our collagen production slows down naturally over time, contributing to the aging process. Reduced collagen levels in the body can lead to the appearance of more fine lines and wrinkles, dull or sagging skin, weaker hair and nails, joint discomfort, and more.

To help you turn back the clock, NHT Global brings you Collagen Supreme. This premium raspberry lemonade flavored drink supplement packs a powerful punch of beauty-enhancing nutrients to promote a more youthful you from the inside out.* Its main ingredient, marine collagen peptides, are clinically proven to replenish collagen levels while also improving the appearance of skin's hydration and elasticity.* The formula also provides hyaluronic acid for improved skin moisture, Vitamin C to support the body's collagen production, and MSM and chondroitin sulfate for joint and connective tissue support.* By boosting your beauty and wellness from within, Collagen Supreme works to support a glowing complexion, stronger hair and nails, and healthier joints.* So that you can look and feel younger from head to toe.*
